TANKMANAGER

LIQUID BULK TANK MANAGEMENT

Bulk Tank Inventory Management Efficiency

Accurate Bulk Tank Monitoring Closes the Gaps in Fuel Related Downtime

TankManager is the AGI SureTrack® solution to inventory accuracy and seamless operation. These hardware options monitor either bulk liquid or propane inventory levels, putting management and logistics information at your finger tips.

Fuel and propane supplies can be one of the biggest input expenses in a farm's operating budget. TankManager makes managing consumption, delivery and downtime associated with bulk fuel, liquid and propane easy—and helps to change red ink to black at the end of the year by keeping you in control of every gallon that is delivered and used.

MONITORING INVENTORIES KEEPS YOU IN THE DRIVER'S SEAT

- **Live Data** - A real-time, on-line view within SureTrack of propane and liquid inventory levels allows you to keep your operation's supply current.
- **Adaptable** - TankManager works on any make, model or year of bulk tank.
- **Efficient** - Customizable settings for supplier preference, scheduling and fill-level alerts eliminate downtime related to insufficient inventory.
- **Simple** - Installation is fast and easy. Replace the cap with the adapter and feed the gauge into the tank. Position the magnetic sensor on the tank, remove the magnet to allow data transmission and watch your inventories appear on the dashboard. It's that simple.

Check your
tank levels
from anywhere
at anytime

Running out of fuel or propane can cost more than manhours when the weather narrows the window to be in the field. Have the inventory levels of every bulk liquid and propane tank at your fingertips, anytime and anywhere you have an internet connection for your phone or tablet.

Create Profit

Use TankManager to top-off tanks when fuel prices are low. Keep track of every gallon of fuel or propane that is put into and taken out of a bulk tank to monitor usage rates and secure your investment.

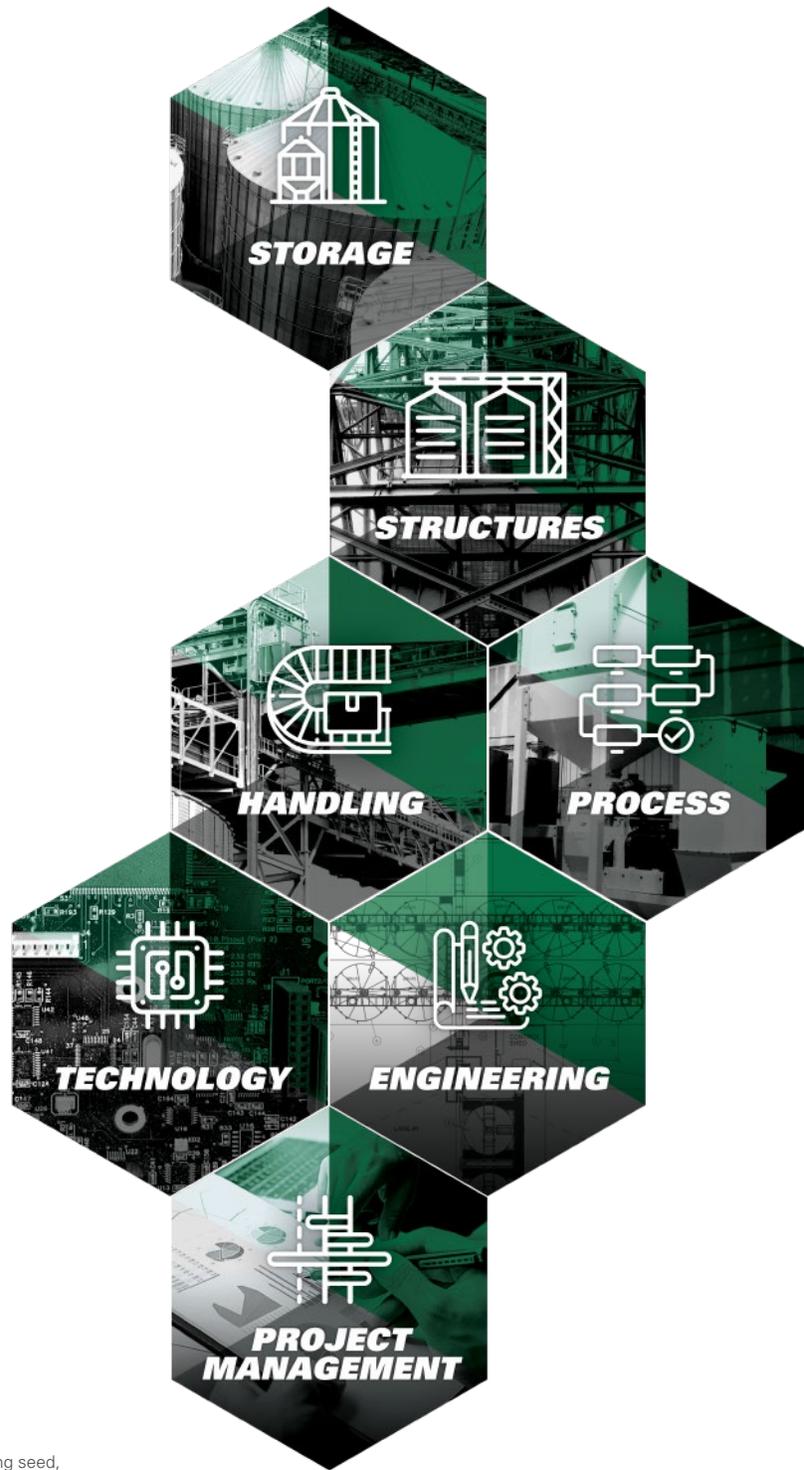

Drive Efficiency

Eliminate the need to drive to every tank in your operation for inventory levels. TankManager keeps you updated on bulk liquid and propane levels 24/7.
