

SURETRACK

BINCHECK® DELUXE
GRAIN BIN MONITORING SYSTEM

Maximize Your Profits with BinCheck® Deluxe

Protecting Your Investment Means Knowing What's Going On Inside Your Bin

BinCheck® Deluxe is one of the bin monitoring solutions offered through AGI SureTrack®. BinCheck Deluxe provides easy-to-use grain bin monitoring with precise reporting on moisture and temperature levels of stored grain.

With integrated hardware and software, BinCheck Deluxe provides a seamless grain bin monitoring experience. The AGI SureTrack online reporting tool brings data to your fingertips, allowing you to see what's going on inside your bin through user-friendly charts, graphs and 3D visuals. Combine this with industry-leading customer support and you have the ultimate grain bin monitoring system to help you maximize your profits.

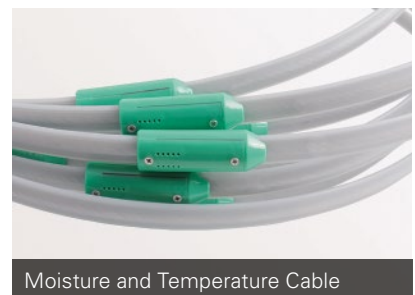

MONITORING CONDITIONS KEEPS YOU IN THE DRIVER'S SEAT

- **Free Grain Testing** - Learn the exact EMC (Equilibrium Moisture Content) settings needed to preserve and condition your grain by submitting a composite grain sample from the bin or bins that BinCheck Deluxe is equipped to monitor.
- **Data Intelligence** - Hourly temperature and moisture data readings are taken by the cables to continually monitor grain condition — viewable from anywhere at anytime.
- **CO₂ Detection** - (Add-on option) Monitor elevated CO₂ levels for early detection of insect and fungi infestation.
- **Retrofit With Existing Cables** - BinCheck Deluxe can accurately monitor grain regardless of cable brand being used in your bin.

HARDWARE

Enhanced Grain Monitor

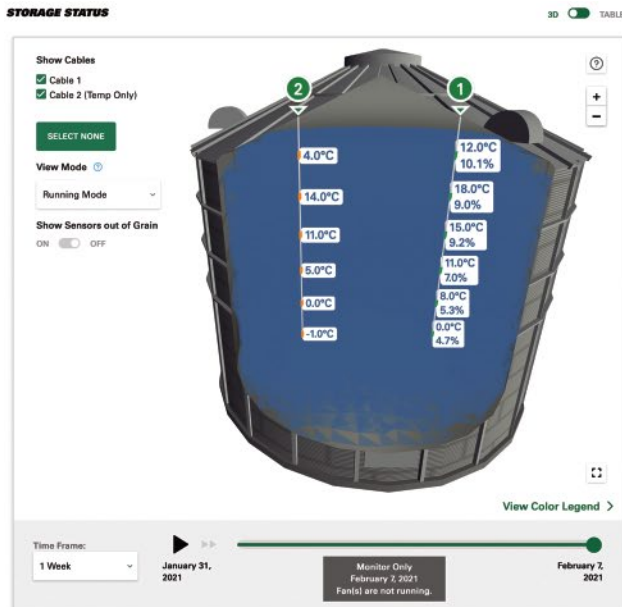

Moisture and Temperature Cable

Check your
bin conditions
anytime,
anywhere

BinCheck® Deluxe gives you peace of mind when managing your in-bin grain by providing hourly data reporting, text/email notifications for hot spots, power and communication issues and online accessibility to view your stored grain and how it is performing every hour of every day.

Grain Reporting Your Way

Choose how you visualize temperature and moisture data. Using AGI SureTrack's online software, view your choice of charts, graphs and 3D models as it relates to time, weather and performance so you can make informed decisions.

Complete Farm Management

BinCheck Deluxe is part of the integrated AGI SureTrack equipment and software system, allowing you to grow, manage and market grain with more efficiency and profit.

Grain Bin Monitoring AND Safety

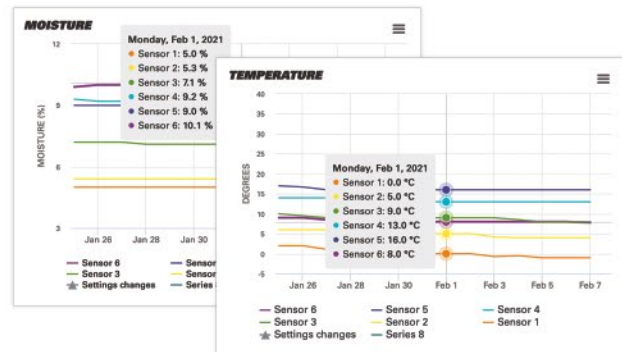

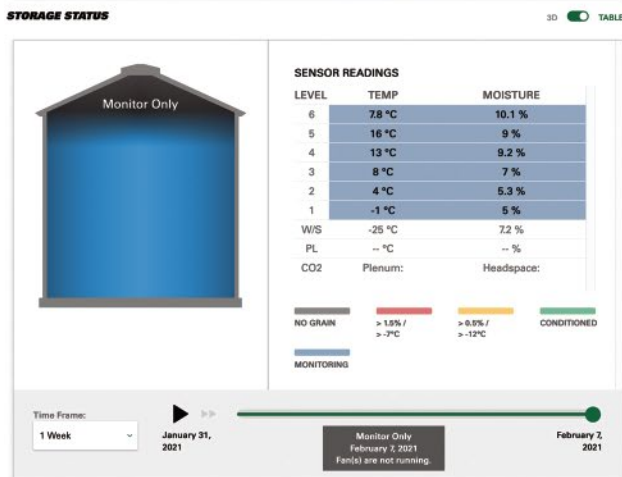

Zero-entry monitoring means you don't have to compromise your safety. Safely monitor the temperature and moisture levels of stored grain without having to go inside the bin.

24/7 Support

With around-the-clock support, downtime is reduced. The AGI SureTrack Customer support team is ready to help you when you need it most.

Two Year Warranty

The AGI SureTrack BinCheck Deluxe is warranted to be free from defects in materials and workmanship under normal application, installation, use and service conditions for a period of two years, to keep your operation running smoothly.

AGI SureTrack® is an AGI Brand.

AGI is a leading provider of equipment solutions for agriculture bulk commodities including seed, fertilizer, grain, and feed systems with a growing platform in providing equipment and solutions for food processing facilities. AGI has manufacturing facilities in Canada, the United States, the United Kingdom, Brazil, South Africa, India and Italy and distributes its products globally.
